

Pickup Configuration | J Bass
Volumes | 2x 250k
Tones | 1x master 250k
Switch | N/A
Orientation | Right Handed

Pots and jack sleeve are ground via traditional metal control plate.
If you are mounting via plastic plate/pickguard, please ensure you
have ground each pot casing and jack sleeve with a wire connection.

Please visit the 'Wiring diagrams & helpful technical info' page on www.homeoftone.co.uk & read through the Home of Tone harness fitting guide before beginning your harness install. Thank you!
