

# Prevention Plus Wellness (PPW) Screening & Brief Intervention (SBI) Opioid Prevention Logic Model for High-Risk Women (4.26.19)

### Assumptions

1. Positive images can be triggered with vivid key words and illustrations
2. Triggered positive peer and desired future images can motivate multiple behavior goal setting and behavior change via changes in risk and protective factors
3. The PPW SBI Practice Model can be adopted to effectively influence various SU behaviors among diverse populations

### External Factors

1. Access to high-risk adult population(s)
2. Time availability of participants and implementers
3. Space and equipment availability to provide SBI to participants
4. Time and staff availability to monitor program fidelity and effectiveness
