How to Install MultiShields Backup on Your Computer

Introduction

Disasters happen. MultiShields Backup keeps your files safely in our cloud data center so you can recover.

With MultiShields Backup you can restore files and folders to your computer or to another computer if your computer is not working.

These instructions show you how to set up MultiShields Backup.

Note: Be sure to stop the installation at the last step below. Our team here at SecureMyFirm Inc. will complete the setup, applying your choice of folders to be backed up.

Required Information

You will need your MultiShields Backup **username** and **password** to log into MultiShields Backup after installing it. You should already have received them from us. If you do not have them, contact us.

If you have questions, contact us at: 952.922.1120 or support@securemyfirm.com

Download MultiShields Backup

Go to the webpage: <u>https://bit.ly/msb888</u> You **do not** need to login. Click the **Windows** button.

Open the Downloads Folder

Open the Downloads folder on your computer. Depending on your web browser you can click a small folder icon.

Another way to open Downloads is to press **Ctrl-J** and choose Open Folder or click the small folder icon.

SecureMyFirm

Extract the Files

Right-click on the downloaded MultiShields .zip file.

Click on Extract All...

Click Extract

Click **Extract** to save the two install files into a MultiShields Backup folder in the Downloads folder.

		×
\leftarrow	Extract Compressed (Zipped) Folders	
	Select a Destination and Extract Files	
	Files will be extracted to this folder:	
	C:\Users\active\Downloads\MultiShields Backup 23.5.1 (x86_64) Browse	
	Show extracted files when complete

	Extract	ei

Double-Click install.exe

Two install files appear in the MultiShields Backup folder in your Downloads folder.

Double-click on install.exe

Click in the next windows (Not shown here):

- Click Run
- Click **Yes** when asked to make changes.
- For language, click **OK**

Click Install

It will take a minute or so after clicking Install.

Click Next
