

EARNEST WOKSHOP

EDNA: The first piece in a range aptly labelled Kin, is Edna. She is classic with a modern interpretation. Like her name she is timeless; solid in stature, but unerringly stylish. With her sharp angles Edna is the matriarch, doing her job with grace and elegance she becomes softer as you grow to love her. The beauty of the hand crafted wooden frame contrasts dramatically with the vibrant tones of the wool seat covers – Edna will be the talk of the table, yet never dominate the room.

Edna is made in New Zealand.

EDNA CARE:

Care for your furniture by removing dust with the dust cloth provided. Remove any other dirt with a damp cloth. Do not use silicone based polishing cream or automotive polishing compounds. Small marks and scratches may be touched up with a coloured wax stick (carefully remove any excess). To minimise discolourartion, do not leave Edna in direct sunlight. Only a professional re-finisher should perform major repairs on damaged surfaces.
