SYNERGY<sup>®</sup>  
SYSTEM

# = SYNTHESIS + ENERGY

Our award-winning Synergy System™ is a real breakthrough. It is a fully modular furniture system that takes customization to a whole new level. There are so many possibilities, anyone can create a piece of furniture that is uniquely their own.

# VERSATILE

Synergy is all about configurability. At the heart of the Synergy System® is a unique square shaped extruded aluminum support post. The post is used simultaneously as an external cabinet skeleton for supporting top, bottom, side and back panels, and as an internal skeleton for supporting shelves and drawers.

Infinitely adjustable shelves

Perforated door or glass inserts permit IR signals, add ventilation and mask speakers

Snap-on hinges fully extend doors and remove easily for better in-cabinet access

Removable rear panel allows easy access to A/V components

The line is constructed of the finest materials, such as real hardwoods and the anodized aluminum supports are extremely durable.

# DESIGN YOUR OWN

The Synergy System allows for configurations that are specific to their end use, and to the individual living space where they are set up. As a modular system, an open architecture can be created to show off AV components, or doors can be added to enhance the room décor. Synergy cabinet modules come in four cabinet widths: single, twin, triple, or quad, and four cabinet heights: 10", 20", 30", or 40".

# STYLISH

While all Synergy cabinets are similar in style, dramatic differences in appearance can be achieved by choosing either black or silver aluminum posts, and by using one of four wood finishes for panels and doors. Select from **real hardwoods** such as dark cherry, natural maple, dark walnut, or choose black. The system offers matching wooden end panels and solid wood framed doors with choice of insert.

# FUNCTIONAL

An extensive family of accessories allows customization of cabinets to meet specific needs and preferences. Integrate accessories enhance functionality and provide years of reliable service. Feel confident that you can retrofit and upgrade your furniture whenever your needs change.

## ACCESSORIES

- **Accent lighting** sets the mood and adds light just where you need it
- **Active cooling system** protects delicate electronics
- **Power conditioning** delivers better picture and sound
- Professional 19" **rack mount** integration
- **Charging and storing trays** designed for any personal mobile device or laptop.
- **Pull out support shelf** for electronic components
- **Media storage trays and drawers** to protect your collection

## INTEGRATED MOUNTS

Integrated cabinet mounts are designed to fix TVs directly to cabinets without the hassle of on-wall wiring and installation. These are quality universal mounts that will handle most televisions and provide screen height and viewing angle adjustments.

## INTEGRATED SOUND

Synergy Cabinets accommodate a wide range of speaker types and sizes. Salamander has partnered with Leon Speakers to offer custom-made premium soundbars to fit most Salamander cabinets. These center channel and LCR speakers are designed specifically to fit any Synergy single, twin or triple-wide speaker opening.

## DECORATOR FEET

Decorator feet and wheels complete the look and embrace performance. Choose from dramatic Saturn Casters in black and silver, tapered Stiletto Designs in black and brushed aluminum or shapely and stylish Curved Feet in polished aluminum.

# PRO AUDIO

## RACK MOUNTING

Synergy Pro Audio Rack Mounts look like furniture. All rack mounts are constructed of premium components with exceptional attention to detail, reliability and durability. All are compatible with **EIA 19" industry standards**. They are available in single or twin configurations with cabinet heights of 20", 30", or 40". Individual rack rails are available in full and short component lengths and can be attached to the front or rear of any cabinet.

Open cabinets may be enclosed with sides and doors and include wire lacing bars for simple cable management.

triple 10 finished in black with black posts

# CONNECTIBILITY

Synergy forms follow function, making them ideal for anyone expanding a cabinet as their Audio / Video needs change.

A core module easily expands into a tower by attaching a vertical **Extension** module. Threaded connectors solidly join the units, assuring visual and structural integrity and additional years of valuable use.

Handsome, functional **Wall and Hutch** modules add an upper tier creating a Synergy Wall System.

## HIGH-QUALITY & LONG-LASTING

We use a proven systems approach that fuses visual design, functional engineering, and advanced manufacturing processes to yield very high quality results. We pay close attention to each component and every design detail and stand behind our products with a **lifetime warranty**.

## BUILT IN USA

Synergy Cabinets are **built to order in the USA**.

## QUICK SHIPPING

With our **Quick Ship** program, cabinets will ship from our facility within three days from receipt of order.

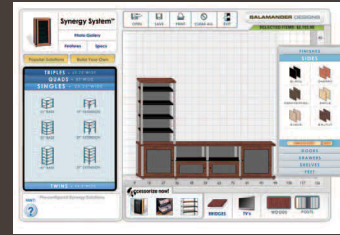

## THE ENVIRONMENT IS IMPORTANT TOO

Our products are made of **sustainable materials**. Our woods are harvested from managed forestry programs, and composite materials comply with rigorous certification standards. We use advanced, environmentally friendly coatings and finishes, and our furniture frames are made from energy-efficient recycled aluminum.
