Confirmation Preparation During These Uncertain Times

Caroline Harvey and Clayton Imoo

5.26.20

- Be creative in communicating with your confirmation students and their parents, emphasizing the importance of Confirmation preparation while acknowledging all that is going on in their lives.
- It will be interesting to see how Confirmation preparation will be affected by this time in isolation. Lay a foundation of community and reflection so that your students are ready to unpack the experience of the pandemic when they are able to gather in groups again. It is important to prepare for welcoming them into the parish again now.
- Emphasize connection and relationship over obligation.
