Reliability

RELIABILITY

Non c'è stagione, genere o tendenza che tenga.

I classici sono una presenza costante del nostro immaginario e del nostro guardaroba. Basta aggiungere le difficoltà che affrontiamo quotidianamente nel vivere in un mondo in continua evoluzione ed emergenza per comprendere perché siamo alla costante ricerca di affidabilità ed equilibrio.

I grandi classici rispondono pienamente a questa esigenza, grazie a un design semplice, a colori rassicuranti e all'utilizzo sempre più attento di materiali senza sprechi.

E anche su questi prodotti senza tempo, si opera un costante lavoro di sperimentazione, si cerca di vestirli di novità per avere dei prodotti basici ma non scontati, prodotti passe-partout studiati nei minimi dettagli.

L'originalità incontra la tradizione.

-

I toni sono scuri ed intensi: marroni, grigi, bordeaux. Colori caldi, facili da abbinare tra loro ed eleganti accostati a colori stagionali.

RELIABILITY

There is no season, style or trend able to compete.

Classics are a constant presence in our imagination and wardrobe. Just consider the difficulties we face daily in an ever-changing and emergency world and you can see why we are constantly looking for reliability and inner balance.

The great classics fully meet this need, thanks to a simple design, reassuring colors and an increasingly close eye on the attentive use of waste-free materials.

And even on these timeless products the work of experimentation is constant, trying to dress them with a new look so as to have basic but not obvious products, passe-partout products studied in detail.

Originality meets tradition.

-

The tones are dark and intense: brown, grey, burgundy. Warm colors, easy to be matched together and elegant when combined with seasonal colors.

L'effetto radica, in un sottile top, accostata a monocolori trasparenti.

-
The briar effect, in a thin top, combined with transparent monocolours.

Mazzucchelli

In-Group

IN-GROUP

Concreto, come un lavoro ben fatto, come un accostamento di colori che appaga l'occhio.

Colori che rispecchiano le tradizioni di diverse culture, con un richiamo artigianale e un tocco di nostalgia.

Rivisitazioni artigianali che guardano al futuro, supportate da una creatività etica e da moderne tecnologie e materiali sofisticati.

Viviamo continue sollecitazioni culturali, un'ebbrezza collettiva: individualità e collettività convivono.

L'idea di incontrarsi e conoscersi pone i termini di una nuova estetica. Raccogliamo il meglio che il mondo ha da offrire ed elaboriamo scelte che rispecchino le necessità individuali, empatiche e funzionali. I social sono un mezzo per affermare queste specificità, in un mondo dove è possibile confrontarsi con culture che sono al di fuori delle nostre esperienze.

-

Toni versatili riflettono una modernità che guarda al passato: cannella, indaco, arancio, verde, con tocchi di rosso e rosa.

IN-GROUP

Effective, like a job well done, like a combination of colors that pleases your eye.

Colors reflecting the traditions of different cultures, with an artisan feel and a touch of nostalgia.

Handcrafted reinterpretations that look to the future, supported by ethical creativity, modern technologies and sophisticated materials.

We are experiencing constant, cultural impulses, a collective inebriation: individuality and collectivity coexist.

The idea of meeting and getting to know each other lays the foundations of a new aesthetic.

We gather the best the world has to offer and make choices that reflect individual, empathetic and functional needs. Social networks are a way to assert these specificities in a world where the confrontation with cultures outside our experiences is always possible.

-

Versatile tones reflect a modernity that looks to the past: cinnamon, indigo, orange, green, with touches of red and pink.

Nuvole di colori rassicuranti danno vita a un morbido pattern.

–
Clouds of reassuring colours create a soft pattern.

New Possibilities

NEW POSSIBILITIES

AI ed estetiche creative lavorano insieme e ci conducono verso nuove realtà, digitali, sintetiche ed alternative, ma sempre funzionali.

La creatività viene usata per trovare soluzioni innovative, per sostenere la tecnologia e per ridurre la distanza tra fantasia e realtà.

Si delineano nuovi mondi, dove si instaura una coscienza attiva nei confronti dell'ambiente e un'attenzione agli sprechi.

Questa creatività la si legge tanto nei colori quanto negli accostamenti, nei pattern così come nella scelta dei materiali.

-

Colori in grado di trasportarci in altre realtà, toni pastello influenzati dal digitale capaci di farci sognare.

Verde matcha, rosa ballerina, pesca e lilla ghiacciato.

NEW POSSIBILITIES

AI and creative aesthetics work together and lead us towards new realities: digital, synthetic and alternative but always functional.

Creativity is used to find innovative solutions, to support technology and to close the gap between fantasy and reality. New worlds are emerging where an active awareness of the environment and attention to waste are established.

This creativity can be seen both in the colors and in the combinations, in the patterns as well as in the choice of materials.

-

Colors can convey us to other realities, pastel tones influenced by digital technology can make us dream.

Matcha green, ballerina pink, peach and icy lilac.

Il pattern di un'avana rivive in accostamenti vibranti.

–
The pattern of a havana revisited with vibrant combinations.

NEW POSSIBILITIES

La spensieratezza dei colori pastello, accostata a facili toni trasparenti. Tutto in un gioco di sovrapposizioni.

–
The light-heartedness of pastel colours, combined with easy transparent tones. All in a game of layers.
