

CAMPANIA Patinas

Campania's cast stone products are available in a choice of thirteen (13) exclusive natural pigment stains in addition to natural cast stone. All of our patinas are hand applied in a multi-step process, producing uniquely beautiful original pieces. Designed to replicate the look of naturally aged materials, the patinas will not prevent the natural aging process that occurs in an outdoor environment.

Like stains for wood, each piece will accept our patinas in varying degrees of intensity, creating natural variations that add character and distinction to every piece. Even when applied with the same process, no two pieces will look exactly alike due to the composition of the cast stone, and the varying age of the pieces. Rather than creating uniform stains, our approach gives our products their unique beauty and appeal.

Due to the hand-application process and photography, actual colors may vary slightly from those depicted in these examples. Please consult our catalog photos and our website for examples of variations of our patinas.
