## Product Overview

1. Power Botton
2. Micro port(input)
3. USB port(output)
4. Power indicator light

## How to Use Compact I

### Charging Your Devices

1. Plug USB micro cable end into Compact I.

2. Plug USB end of USB micro cable into device.
3. Press power button to start charging.
4. Remove device when not charging or when it reaches full charge.

### **Checking How Much Charge is Left**

1. Click the Power Button to see how much charge is left on Compact I. Each light indicates  $\frac{1}{4}$  total charge left.

### **How to Recharge Compact I**

When Compact I needs to be recharged, use the enclosed USB micro cable and plug it into a charger. You can use any type of charger, such as the one that came with your device, or a computer to recharge Compact I. However, using a wall charger is the quickest way to charge Compact I to full charge.

1. Plug the USB micro cable that came with Compact I into an AC adapter (not included) or a computer's USB port.
2. The charging indicator will flash, showing you its charging and how much is left to go.
3. Once all four charging indicators are lit, Compact I is fully charged and should be disconnected from charging source.

### **LED Indicator Instructions**

- **Blinking Circles:** Charging external device or Compact I
- **1 Fully Lit Circle:**  $\frac{1}{4}$  charge remaining
- **2 Fully Lit Circles:**  $\frac{1}{2}$  charge remaining
- **3 Fully Lit Circles:**  $\frac{3}{4}$  charge remaining
- **4 Fully Lit Circles:** Full charge remaining

### **Usage Tips**

For maximum battery conditioning, make sure to unplug your phone or device after it's fully charged. This also helps keep Compact I's charge longer.

Don't smother Compact I when charging it or a device to prevent overheating.

### **FAQ**

**1: Will Compact I damage my phone's original battery?**

Compact I uses a Samsung top graded battery to ensure the best charging experience.

**2: Can I use other USB cables rather than the cable provided by Garadise?**

Yes, but we strongly recommend you using your device's original cable or certified cables such as MFI cables.

**3: Does Compact I work with both Samsung phones and iPhones?**

Yes. Compact I is compatible with all kinds of phones, tablets, and mobile devices.

**4: Can I travel with it domestically and internationally?**

Yes.

**5: How long will the battery last while not in use?**

Generally, it can last a whole year without using it. But to maximize your battery's lifetime, please recharge the battery once every 3 - 4 months.

## **Warranty**

We strive to make every customer's experience with Garadise a positive one. However, if you need to return or exchange an item, here's what you need to know to make the process as smooth as possible.

For all purchases made from Garadise, we offer our customers the following:

- 30-Day Money Back Guarantee
- 12 Month Limited Warranty

Our 30-day money back guarantee gives you peace of mind that we're here to take care of you in the event that you change your mind or a defective product comes your way. We have you covered. Just return your undamaged Garadise accessory back to us for a full refund. Keep in mind if you're just returning a product, and it's not defective, you'll incur all shipping costs on the return; if it's defective, we'll take care of that for you.

Our 12 month limited warranty covers all manufacturer defects from the date of purchase. Simply return the accessory to us, and we'll send you a replacement or full refund, including your shipping costs.

## **Contact Us**
