

ACHIEVE SERIES

- DUALS

BUILD YOUR GYM WITH THE TKO ACHIEVE SERIES

The TKO Achieve series is a premium collection of strength training equipment engineered for durability, performance, and visual appeal in commercial fitness settings. Featuring selectorized machines with smooth, biomechanically precise movement, the Achieve series includes a comprehensive range of stations for both upper and lower body workouts. Each unit is designed with a compact footprint, intuitive adjustments, and a cohesive, modern aesthetic—making it ideal for clubs, studios, and corporate wellness centers seeking a space-efficient solution.

The TKO Achieve Duals combine two exercises into a single machine, offering a space-saving and cost-effective option for commercial gyms. With smooth functionality, quick adjustments, and a streamlined design, these dual-function machines maximize floor space without compromising on performance or versatility in strength training.

The TKO 8060 Light Commercial Functional Trainer is a compact and versatile dual-adjustable pulley system designed for a wide range of strength and functional training exercises. Featuring smooth, commercial-grade pulleys and a 1:2 resistance ratio, the 8060 allows for precise and fluid movement. With adjustable pulley arms, multiple handle attachment options, and integrated accessory storage, it supports full-body workouts while maintaining a small footprint—ideal for facilities with limited space. Part of TKO's Achieve Series, it combines durability, sleek aesthetics, and user-friendly design to meet the needs of both beginners and seasoned athletes.

ACHIEVE SERIES

- BENCHES

BUILD YOUR GYM WITH THE TKO ACHIEVE SERIES

The TKO Achieve Series benches offer a versatile range of strength training solutions, built with heavy-duty steel frames for both home and commercial use. The lineup includes the Full Incline/Decline (FID) bench, which adjusts from a -10° decline to an 80° incline, and features a $+10^{\circ}$ seat angle for full upright support. The Utility Bench provides a fixed 80° angle, ideal for seated pressing with a space-efficient design. The Commercial Multi-Angle Bench offers multiple incline settings with a rugged 3" single-piece 11-gauge steel frame, while the Ab/Crunch Bench is tailored for core workouts, featuring six incline options and a wide, stable base. Most benches are equipped with transport wheels and easy-lift handles for mobility, and all are designed with durability, stability, and performance in mind.

ACHIEVE SERIES

- STORAGE

ORGANIZE YOUR GYM WITH THE TKO ACHIEVE SERIES

The TKO Achieve Series storage racks are designed to provide durable, space-efficient, and customizable solutions for organizing a wide range of fitness accessories. Built with heavy-duty steel frames and styrene-lined shelves, these racks help protect both equipment and flooring while maintaining a clean, professional look.

Key features include:

- Modular configurations for storing dumbbells, kettlebells, medicine balls, plates, bars, bands, and more
- 3×3" tubing construction for strength and durability
- Ideal for commercial gyms, schools, studios, and functional training zones

The Achieve Series offers flexibility and high capacity to keep workout areas organized, safe, and efficient.
