YB Loves: The Ultimate Makeup Sampler

Each day the editors of Yahoo Beauty are sharing one noteworthy product we feel should be on your radar. From the latest and greatest items that land on our desks to indie products with a cool backstory to the old standbys that have earned a permanent place on our vanities, trust us: you'll want to check them out.

No matter how much you read about a product, you'll never really know it if works for you until you give it a try—and sometimes that can be a challenge. Maybe you can't make it to the [department store beauty counter](#) or you don't have a nearby [Sephora](#) store where you can spend hours smearing lipstick on your hand trying to find the perfect formula. Thankfully, [MAKE Cosmetics](#) has got your back. The brand understands that you want to be sure the formula is right for you before you really invest.

They've put together a sampler that includes mini sizes ([who doesn't love minis?](#)) of some of their top products: a crimson red [lipstick](#), a silky [liquid foundation](#), two eyeshadows (one [satin](#), one [matte](#)), and of course, a travel size [makeup remover](#). This pack gives you the chance to really test the formula before you go and make a purchase. Oh, and did we mention it's only \$10 including shipping? The best part, of course, is that you'll have these products on standby the next time you're traveling or just have a super tiny handbag.
