BEST LIP TREATMENT

Make [Marine Salve](#) (\$20)

The specs: While there isn't much this salve *can't* do, the emulsion of shea and cacao butters, olive, jojoba, and grape-seed oils, and beeswax is particularly effective on dry, chapped lips.

Why we love it: Amanda likes to use it for just about everything. "I am all about a hydrating, universal balm, and Make's is my favorite of the moment," she says. "A few months ago when I had a cold, I used it to seal my cracked nose, my dry lips, I even used it to hydrate my under-eyes. It's thick but not *too* thick, so it doesn't clog pores. I have two bottles of this stuff and reach for it every single day."
