# The One Lipstick Shade Gigi and Beyoncé Love for Summer

**B** by BELLA GARRETT

Nothing completes a look like a swipe of lipstick. We all have our tried-and-true favorites we turn to in times of need, but it's time to make room on the shelf: Red, a timeless classic, is now trending with a summer twist. Gigi Hadid has been seen rocking the bright neon red from day to night, and even Beyoncé has been spotted sporting the red-hot hue.

The thing is, finding the perfect shade of fiery, orange-y red can seem nearly impossible. Too red, and it looks garish during the day; too orange, and you'll look washed out. Deciding between Lady Bug and Dangerous or Ruby Valentine and Red Royal isn't as always as easy as it seems. But if Bey and Gigi can do it, then so can we (with a narrowed-down, beauty editor-approved list of course).

MAKE Lipstick in Magma (\$25)

This super-velvety lipstick contains squalane, vitamin A, and sunflower seed oil to keep your lips feeling moisturized, but the finish is undoubtedly matte. Veering more on the orange side of the spectrum, this summery lippie is perfect for those with warm or olive skin tones.
