TEAMWEAR

• **ADIDAS**

It's not only professional football players that get to wear adidas Teamwear. The comfort, fit and appearance of teamwear are some features that build faith in a group. A team kit with a regular fit, not too tight or too loose, takes up the body structure of the individual, ensuring a flattering look. The fabric type plays a more significant role in determining the quality, synergy and quantity of output in any competition the team is a part of.

On cold-weather training days, training wear ensures that the team are protected from the cold and able to perform to the highest level. Picking your adidas team wear should be done carefully, bearing in mind looking and feeling your best can influence performance on the field.
