# Instructions

1. Make sure template is printed to 100% scale by checking against the ruler. Measurements should line up exactly.

2. Place your bare foot on this template to see how this size fits.

3. The solid outline represents the exact outline of the sandal perimeter.

4. For Bedrock's best fit suggestion, choose a size where foot length matches closely to dotted line.

5. For more sizing information visit bedrocksandals.com or email us your questions or template photos to support@bedrocksandals.com
