

# RE-SOUL PROGRAM FORM

We believe strongly in lessening our environmental impact and re-defining conventional product lifecycle through repair and resole. We design and build Bedrock Sandals to be as dirtbagproof as possible, however, heavy wear + tear gets even the best eventually. Our RE-SOUL program proudly provides authorized repairs done by Bedrock makers in our Montana based workshop, keeping your well storied sandals adventure-ready and out of the landfill.

Below you'll find a diagram of both the Cairn and Classic models of our sandals. Please refer to the diagram as you describe what's in need of repair. If you need a new sole unit on your Cairn model, please select the traditional Regolith Vibram® Sole or Mega Grip Vibram® Sole (found on our Cairn Pro model.) For all non-warranty strap repairs (i.e. dog got a hold of the thong strap or the Velcro® heel strap wears after normal lifecycle) we'll charge you an additional amount per unique strap. Due to the process in which Classic Sandals are created, they can only be restrapped, not re-soled. Please refer to our current strap color selection online when determining your first and second strap color preference for repairs.

Proud of your RE-SOUL? Let us know via the form below if you'd like the RE-SOUL patch sewn onto the heel strap of your sandals. Also, we dig learning of your Bedrockin' stories, include a note and/or picture in the bag as we'll be stoked to read and share it with the Bedrock crew.

Strap Color Choice 1 \_\_\_\_\_

Strap Color Choice 2 \_\_\_\_\_

(For strap repairs, refer to our current selection online to see what is available)

## GUIDELINES

- We assess all sandals for warranty. If any damages fall under the terms of our Rock Solid Warranty, we will repair at no charge to you. Please refer to [bedrocksandals.com/warranty](http://bedrocksandals.com/warranty) for more.
- Upon receipt and assessment of the sandal, we'll email you an invoice outlining the cost of repair. This is to be paid prior to shipment.
- By law, sandals are required to be clean before we work on them. Please wash them by hand to remove debris and dirt (never by machine) prior to sending them. If necessary we will bill an additional \$10 for cleaning.
- Please ship your package via a carrier that can provide tracking. Our address is 1620 Rodgers St., Ste 1, Missoula, MT 59802. Bedrock will ship back to you via USPS Priority (\$6-10) for domestic and DHL (\$20-\$30) for international.
- RE-SOUL repairs are completed in the order in which they were received. Please allow us up to two weeks once we receive them to give new life to your Bedrocks.
- Please visit [bedrocksandals.com/resoul](http://bedrocksandals.com/resoul) or e-mail [support@bedrocksandals.com](mailto:support@bedrocksandals.com) for more info and to share your stories.
