

Workout Safety Protocols:

Our staff will follow extra care and safety with respect to our equipment and the facilitation of all ongoing instruction within our programming.

- Staff provides basketballs to all attending players
- Cleaning products available to wipe down equipment prior to use
- Hand sanitizing stations placed throughout the facility
- Restricted partner activities
- Monitored greetings between players, coaches, trainers, and parents
- Parent drop off for all sessions scheduled
- Social distancing reinforced by all staff throughout operating hours

We ask that you continue to take extra precautionary measures and be responsible and respectful prior to attending any workouts to honor the safety of staff and players alike.

Group programming will ONLY take place when we have effectively been allowed to do so. Until then, programs will consist of 1:1 Private Training unless promoted otherwise.

Please contact if you have any questions or concerns regarding any of the information listed above. The safety of our clients is our number one concern and we will continue to remain up to date with our procedures moving forward as we become more educated on the future handling of the virus.

Our staff kindly asks you to strongly respect this announcement! Thank you in advance for your cooperation regarding this message!
