Product Specifications

- Soft LED light for night time use
- On/Off switch
- Built in 1-hr timer, with option to cancel
- Durable, non-toxic and easy to clean
- Cool to the touch

Operating the light

1. The on/off button is located at the middle of the light.
2. Press the button to turn on, and press the button to turn off.
3. When the light is turned on, the timer is also on. After 1hr, the light will turn off automatically.
4. The 1-hr timer and timer indicator light can be cancelled by long press the on/off button for 3 seconds.

Battery Charge

1. Plug the USB cable into the bottom of LED light up and then into an appropriate electrical outlet.
2. The charging indicator light will glow red when charging is taking place.
3. The light takes 1.5-2 hours to fully charge. Once fully charged the light will glow for between 8-10 hours.

Note: For maximum battery life span fully charge the LED light up and empty on the first use. The LED light up should be fully charged at each charging session.

Note: The product is to be regularly examined for damage to the cord, plug, enclosure, and other parts, and in the event of such damage, they must not be used until the damage has been repaired.

Note: This product is not a transformer toy. The product will not function while charging.

Product Warnings

- This product is for indoor use only.
- Clean the article with a duster or with lightly damp cloth.
- Do not immerse in water.
- Save this manual for later reference.
- In case of wrong operation do not disassemble the LED module.
