

Covid-19: Back to Work Supplies and PPE from Chefswarehouse.co.uk

15th May 2020

- Disposable Face and Hand protection
- Visors and Reusable masks
- Aprons and Gowns
- Sanitisers and Dispensers

Key Features

- CE marked / Certificated supplies
- NO VAT on PPE (1st May to 31st July)
- Minimum order size £200
- Discounts maybe available on bulk orders
- Please email sales@chefswarehouse.co.uk in the first instance with your requirements / enquiries

We have secured access to a range of PPE and related supplies at economical prices. All products are sourced from suppliers able to show CE marks and provide the necessary documentation / specification sheets – essential for employers and health professionals.

Availability

Presently, large quantities of supplies are being processed and we cannot always provide a 'next day service' but the supply chain is now stabilising and availability is much more assured.

Minimum Order

Given the cost of delivery and economies of scale, our minimum order size for items in this listing is £200 (excluding VAT if applicable*).

Price Stability

As commodities very much in demand, the cost of PPE supplies is more volatile than usual. Prices published in this listing will be reviewed frequently so they are kept current and we will confirm our price offer formally before processing your order. We may be able to give discounts on large quantities.

Contact Us

In the first instance, please contact us by email sales@chefswarehouse.co.uk or through our website contact form or chat line.

*HMRC are waiving VAT PPE items from 1st May to 31st July 2020)

Hand & Touch Point Sanitiser 500ml. Our Price £5.99 each

Coronavirus PPE

Aqua Air Xtra Protect 500ml Hand Sanitiser / Touch Point Sanitiser

Xtra Protect Multi-Surface Sanitiser 500ml. Our Price £5.99 each

General Disinfectant

**Residual surface cleaner effective against
Coronavirus. With upto 8 days protection**

XtraProtect is a multipurpose cleaner and sanitiser. When you clean with XtraProtect, not only does it give great cleaning results at the time of application, but it also carries on protecting that surface for up to 8 days. When applied, XtraProtect leaves a microbial layer on the surface which continues to kill germs and bacteria without having to re-apply killing such nasties as e-coli, MRSA and C Diff, biofilm . A great product for clinical, medical, catering or educational environments. XtraProtect uses a physical kill (and a microbial which doesn't have to be in solution) rather than a chemical kill therefore a dry surface is still protected with this product. With a chemical kill the product needs to be in solution and needs time to kill the bacteria, as time goes on the chemical evaporates. All the Xtra range are environmentally friendly, non toxic, non-pathogenic and biodegradable and have been developed always keeping ever cleaning at the forefront of research and development.

Range of sizes available

Xtra Protect Multi-Surface Sanitiser 100ml Our
Price £3.56 each

Hand Gel Sanitiser (70% Alcohol) 5Litre Our Price £39.99 each

Kitchenmaster Alcohol Hand Rub / Alcohol Hand Sanitiser Gel 70% Alcohol 5 Litre

The NHS and Public Health England agree that to kill most viruses, a hand sanitiser should contain at least 60% alcohol. To this end, we would like to inform you that we are now in a position to offer an alcohol-based hand sanitiser with a minimum 65% ethanol, ensuring its effectiveness against coronavirus – COVID-19.

Hand Sanitiser Gel Sanitiser 6 x 500ml pack.

Our Price £9.49
