# About these packages...

The prices shown are estimates based on the floral recipes required to design and create each specific item. Should a client choose a different look, feel, florals, or to add/remove items, the pricing will change. This package is just a starting point to offer clients an insight to the cost of wedding florals.

A color chart is provided. Please select a primary color, a secondary color, and a tertiary accent color. Inspiration photos are welcome as they provide LML a feel for your style. LML will try her hardest to fulfill specific flower requests, but flower selection may not be guaranteed.

Any package may be customized. Additional items may be added and will increase price. Please take a look at the "Weddings" page on [littlemisslovely.com](http://littlemisslovely.com) for a list of floral items traditionally purchased for weddings. If you'd like to add additional items to your invoice, please let Ami know. If you'd like to upgrade any of the items (for example: you'd like compote vase arrangements as centerpieces instead of the bud vase centerpieces shown in the package), please let Ami know and she can provide you with the associated cost of the upgrades. Labor, local delivery, and set up costs are incorporated into these package prices.

Please discuss floral decor and layout options with venue coordinator and then email [Ami@littlemisslovely.com](mailto:Ami@littlemisslovely.com) to discuss your floral selection and Ami will customize your floral package.
