

# VC50W | VC100W

Pure Resonance Audio Decora 70V Commercial Volume Control

## DESCRIPTION:

The Pure Resonance Audio VC50W 50 watt and VC100W 100 watt white decora style 70V volume control is part of Pure Resonance Audio's family of speaker attenuators built to control volume for 25V/70V/100V sound systems. These volume controls feature a durable plastic decora wall plate with white finish and matching knob. Provides excellent frequency response, low insertion loss, and reliable performance. The clean white decora style will fit in perfectly with decora wall plates for existing light switches and electrical outlets in your conference room, classroom, restaurant dining area, retail store, hotel lobby, church, medical office, or corporate office.

## FEATURES:

- Decora style design includes white plastic plate with matching knob
- Perfect for use with 25V, 70V or 100V speakers and distributed audio systems
- Excellent frequency response, low insertion loss, and reliable performance
- Easily adjust to your desired volume level
- Provides high-quality audio level adjustment of single or multiple speaker lines
- Removable phoenix-style terminal block with in-out throughputs accommodates up to 14G speaker wire
- Available in white decora (VC50W/VC100W) and stainless steel (VC50S/VC100S)
