PUBLISHING REPRODUCTION PROGRAM

Thank you for your interest in Higginson's Publishing Reproductions program. We specialize in re-publishing books in order to keep them in print and provide information for future generations. If you have a copy of a book you would like reprinted, please fill in the form below and return it to us. Copies may be submitted in pdf format or original books. Please note if the reprint is from an original book, the spine will be removed so it can be scanned. This allows for the most professional reproduction. The original book will not be returned and will remain property of Higginson for future reference.

This program does not yield royalty payments like traditional publishing. Instead we offer the following:

- 1. Complete scanning and pdf editing at no charge to you.
- 2. Copies made available on both our website: www.higginsonbooks.com and on Amazon.
- 3. Send you four free soft cover copies of the book.
- 4. Give you 30% off each time you order the book from us.
