## Active Elements – Integral Color Packs

[www.UBQind.com](http://www.UBQind.com)

Active Elements Integral Color packs are synthetic iron oxide pigments that provide lightfast and weather resistant color for concrete overlays, coatings and systems.

Integral color packs can be used for resurfacers, micro toppings, stamped overlays, spray overlays, trowel overlays, vertical mixes and countertops.

Active Elements Integral Colors are finely milled and provide for sunfast, chemically inert, alkali resistant colors that meet or exceed the criteria of ASTM C979.

### Directions:

Add the entire contents of the color pack to the water in the mixing bucket and gently stir prior to adding the dry overlay.

Be careful to empty the entire contents of the bag into the mix water.

It is acceptable to dry blend the pigment pack into the dry overlay prior to mixing with water.

### Variations:

Final color may not be an exact match to the color chart.

Color variations can occur if water ratios are changed from one batch to another.

Type of sealer used can dramatically affect the color appearance.

Always perform a representative test sample using all materials and techniques planned for the project

### Warranty

This warranty is made in lieu of all other warranties, either expressed or implied. Before application the User shall determine the suitability of the product for his/her intended use and User assumes all risks and liabilities whatsoever in connection therewith. Neither seller nor manufacturer has any knowledge or control concerning the purchaser's use of this product and no warranty is made as to the results of any use. The Manufacturer and/or Seller warrants that if any goods supplied prove defective in material the sole obligation shall be to replace said product. Any claim of defective product must be received in writing within one (1) year from date of shipment. Neither Manufacturer nor Seller shall assume any liability for injury, loss, or damage resulting from use of this product.

DO NOT TAKE INTERNALLY. KEEP OUT OF REACH OF CHILDREN.
