301 SnapWords® Teaching Cards
These SnapWords® sets are conveniently bundled for those of you who have already purchased our best-selling 306 SnapWords® Kit. Once you have added the 301 SnapWords® Kit to your learning tool kit for teaching sight words easily and effectively, you will have a total of 643 sight words taken from three of the most popular lists of necessary high frequency words: 220 Dolch words, 300 Fry, and 500 Fountas & Pinnell, plus additional words that have been specifically requested by teachers. Includes Lists F, G, N1, N2, V.

Here are some important ways you can use the 301 Kit:
• Introduce concrete words to children as young as 18 months. (For example: baby, bike, boat, coat, dog, shoe, sun, etc.) These are objects they are familiar with, so learning to recognize the word will be easy.
• Teach your students words that are used across the curriculum (example: problem, number, insect, island, world, planet, ocean, space, etc.) This will make reading for other subjects much easier.
• Add context and meaning to abstract sight words. Go from learning a, at, by, on, if, put, ride, pick, soon, etc. to making sentences such as “I can run down the hill.” Or “The insects ate the grass from around the house.” All the words in those sentences are SnapWords®.
• Because you can create sentences with the words in the 301 Kit, you can focus your attention on reading comprehension is where it should be.
• Focus on teaching parts of speech. Identify and isolate those words that are nouns or verbs or adjectives and teach children how to create sentences properly using those words.
