

This hastily-constructed visual is not only a visual reminder of the measurement vocabulary, but the words are tied to objects children are familiar with (inchworm, his foot, his yard) and relative lengths are implied. Snap a picture and learning is done. If a child is not sure about remembering it, he could take a second to draw his own version of the visual. In the Easy-for-Me™ Reading Program, all difficult concepts have a visual to help the child recall the concept.

Measurement:
