

Mondrian Matching Game

Supplies

- Red, Yellow, Blue, and Black Paint
- Paintbrushes
- Thick White Paper
- String
- Scissors

*Variation: You could also make a paper version using white, red, yellow, and blue paper, with black paper strips.

Instructions

1. Cut the string a few inches longer than the paper.
2. Paint the string black. Be sure to completely cover the string.
3. Lay the painted string across the paper, horizontally then vertically several times, pressing down slightly to make sure there are nice black lines. You may have to reapply paint to the string during the process.
4. Once the black paint is dry, choose a few squares or rectangles to paint. Look at Mondrian's painting as an example. Make sure to leave a lot of white!
5. If you would like to make these into a matching game, you will need two of each image. Glue images onto paper or cardstock of your choice, to ensure that the backs all look the same.
6. Shuffle the cards and lay them out face down. Turn over two at a time and try to make a match!
