

SnapWords®

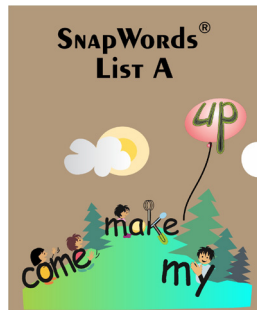

Guide

Thank you for choosing a SnapWords® Kit! We are confident that you will love the results you achieve using SnapWords® and their supporting resources.

1. Locate SnapWords® Mini-Lessons

Turn to page 5 where you will see a list of all the words in SnapWords® A and a breakdown of the 5 Levels of words. You will be locating the words from Level 1 to begin with.

2. Find SnapWords® List A

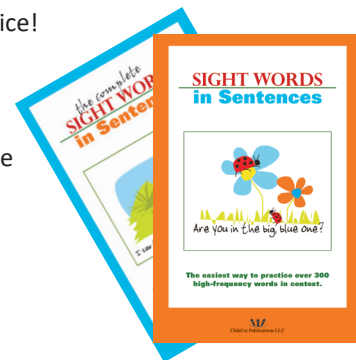

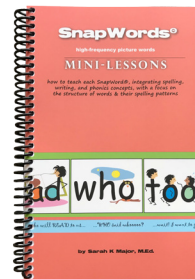

Open the package and find the 12 cards from Level 1 (see *SnapWords® Mini-Lessons*, page 5). After introducing the words, display them as desired. You may use a Pocket Chart (search www.child1st.com) or display them on a bulletin board - your choice!

3. Go back to SnapWords® Mini-Lessons

Turn to page 162 and introduce your words using Activity 1. Activities 2-4 are good for practicing SnapWords® images, activity 9 is good for transitioning to the plain word on the back, while activities 7-8 assesses what your child knows.

4. Sight Words in Sentences

Once your child knows a whole List of words, use *Sight Words in Sentences* to practice reading sight words in the context of sentences. (*Sight Words in Sentences* for the 306 Kit and *The Complete Sight Words in Sentences* for the 607 Kit)

Perfect Pairs!

SnapWords® are the heart of our right brain resources, and these products pair perfectly with them!
