

Show the pictures to the students.

Tell the students about Pinchy E: He doesn't really say anything at all because he is so busy being sneaky. While other letters are each saying a sound, he's quietly reaching behind his neighbor and pinching the next letter. Being pinched makes that letter say its name. Go over some examples or do the skit found on the website.

Next, explain that the E in the other picture isn't saying anything either; he isn't being sneaky, he is sleeping! This makes the O and V say, "UH." Go over some examples.

Have the students cut out the words and paste them in the corresponding section.
