M2

SMART TRAINER

2" resistance unit roller allows for 650b, 700c, 26", and 27" wheel sizes.

2" precision-machined alloy roller reduces tire wear and slippage.

Noise level at 20 mph is a quiet 69 decibels.

Integrated Cadence Detection

1500 watt peak resistance.

Integrated dual ANT+ FE-C and Bluetooth 4.0 technologies.

Fast response electromagnetic resistance ensures most responsive resistance and maximum power available.

Features clutch knob for perfect roller to tire tension each ride.

Eccentric leveling feet allow for easy adjustment on uneven surfaces.

PowerTuned using PowerTap technology for accurate power readings up to +/- 5%.

Compatible with a wide variety of devices and virtual training applications, including Rouvy, Zwift and many more.
