

## Comprehensive Detox Diet

The Comprehensive Detox Diet is a dietary program designed to clear the body of foods and chemicals you may be allergic or sensitive to, and, at the same time, improve your body's ability to handle and dispose of these substances.

We have called this an "Elimination Diet" because we will be asking you to remove certain foods, and food categories, from your diet. The main rationale behind the diet is that these modifications allow your body's detoxification machinery, which may be overburdened or compromised, to recover and begin to function efficiently again. The dietary changes help the body eliminate or "clear" various toxins that may have accumulated due to environmental exposure, foods, beverages, drugs, alcohol, or cigarette smoking.

In our experience, we have found this process to be generally well tolerated and extremely beneficial. We obviously hope that you will find it useful too. There is really no "typical" or "normal" response. A person's initial response to any new diet is highly variable, and this diet is no exception. This can be attributed to physiological, mental, and biochemical differences among individuals; the degree of exposure to, and type of "toxin"; and other lifestyle factors. Most often, individuals on the elimination diet report increased energy, mental alertness, decrease in muscle or joint pain, and a general sense of improved well-being. However, some people report some initial reactions to the diet, especially in the first week, as their bodies adjust to a different dietary program. Symptoms you may experience in the first week or so can include changes in sleep patterns, lightheadedness, headaches, joint or muscle stiffness and changes in gastrointestinal function. Such symptoms rarely last for more than a few days.

We realize that changing food habits can be a complex, difficult and sometimes confusing process. It doesn't have to be, and we think that we have simplified the process with diet menus, recipes, snack suggestions and other information to make it a "do-able" process. Peruse this information carefully. If you have any questions about the diet, or any problems, please give us a call. We would be happy to help, and often we can resolve the issue quickly.

# Introduction to the Menu Plan for the Comprehensive Detox Diet

Eat only the foods listed under “Foods to Include,” and avoid those foods shown under “Foods to Exclude.” These Guidelines are intended as a quick overview of the dietary plan. If you have a question about a particular food, check to see if it is on the food list. You should, of course, avoid any listed foods to which you know you are intolerant or allergic. We also may change some of these guidelines based upon your personal health condition and history.

The “7-Day Menu Plan”, may be used as is or as a starting point. This is a *suggested* menu that you might find useful while you are on the elimination diet. Feel free to modify it and to incorporate your favorite foods, provided that they are on the accepted list.

*A few suggestions which may be of help:*

You may use leftovers for the next day’s meal or part of a meal, e.g., leftover broiled salmon and broccoli from dinner as part of a large salad for lunch the next day.

It may be helpful to cook extra chicken, sweet potatoes, rice, and beans, etc. that can be reheated for snacking or another meal.

Most foods on the menu plan freeze quite well.

Please add extra vegetables and fruits as needed. The menu is a *basic* one and needs your personal touch. **This is not a calorie-restricted diet.** Use the suggested snacks as needed for hunger or cravings; leftovers are also handy to eat as snacks.

If you are a vegetarian, eliminate the meats and fish and consume more beans and rice, quinoa, amaranth, teff, millet, and buckwheat.

Breakfasts that need cooking are easiest to incorporate on your days off. Muffins can all be made ahead of time, frozen, and used as needed.

If you are consuming coffee or other caffeine containing beverages on a regular basis, it is always wise to slowly reduce your caffeine intake rather than abruptly stop it; this will prevent caffeine- withdrawal headaches. For instance, try drinking half decaf/half regular coffee for a few days, then slowly reduce the total amount of coffee.

Select fresh foods whenever you can. If possible, choose organically grown fruits and vegetables to eliminate pesticide and chemical residue consumption. Wash fruits and vegetables thoroughly.

Read oil labels; use only those that are obtained by a “cold pressed” method.

If you select animal sources of protein, look for free-range or organically raised chicken, turkey, or lamb. Trim visible fat and prepare by broiling, baking, stewing, grilling, or stir-frying. Cold-water fish (e.g., salmon, mackerel, and halibut) is another excellent source of protein and the omega-3 essential fatty acids, which are important nutrients in this diet. Fish is used extensively. If you do not tolerate fish, consult with us. We may suggest supplemental fish oils. Avoid shellfish, as it may cause allergic reaction.

Remember to drink the recommended amount (at least two quarts) of plain, filtered water each day. Strenuous or prolonged exercise may be reduced during some or the entire program to allow the body to heal more effectively without the additional burden imposed by exercise. Adequate rest and stress reduction are also important to the success of this program.

Finally, anytime you change your diet significantly, you may experience such symptoms as fatigue, headache, or muscle aches for a few days. Your body needs time as it is "withdrawing" from the foods you eat on a daily basis. Your body may crave some foods it is used to consuming. **Persevere.** Those symptoms generally don't last long, and most people feel much better over the next couple of weeks.

## Recipes for 6 Day Menu

### DAY 1 RECIPES

#### **Lentil Soup** - *Serves 4*

2 cloves garlic, minced 1 medium onion, chopped 2 large carrots, sliced or chopped 2 stalks celery, chopped 1 1/2 cups red and/or green lentils, well rinsed 2 quarts water or broth Pinch thyme or any herbs of your choice Salt to taste

Combine first 6 ingredients and bring to boil. Add seasonings. Reduce heat to medium-low and simmer, partially covered, until lentils are soft. Green lentils need about 45 minutes to 1 hour, while red lentils only need 20-30 minutes. Puree half of the soup in the blender if you prefer a creamy soup.

#### **Split Pea Soup** - *Serves 6*

3 cups dry split peas, well rinsed 2 quarts water 1 tsp. salt 1 bay leaf

1/2 - 1 tsp. dry mustard 2 onions, chopped fine 4 cloves garlic, minced 3 stalks celery, chopped 2 medium carrots, sliced Salt and pepper to taste 3 Tbsp. apple-cider vinegar or rice vinegar

Combine peas, water, salt, bay leaf, and mustard in 6-quart pot. Bring to boil, reduce heat and simmer, partially covered for about 20 minutes. Add vegetables and simmer for another 40 minutes, stirring occasionally. Add more water as needed. Add salt, pepper, and vinegar to taste.

#### **Quinoa Salad** - *Serves 8-10*

1 1/2 cups quinoa, rinsed several times 3 cups water, or chicken broth or vegetable broth (or a combination) 1 cup fresh or frozen peas (frozen baby peas should be just defrosted) Chopped veggies, raw or lightly steamed (broccoli, asparagus, green beans, etc) 1/2 cup chopped red onion 1/2 cup chopped black olives (optional) 1/3 cup olive oil 2 Tbsp. balsamic vinegar or lemon juice 1 or 2 crushed garlic cloves 2-4 Tbsp. fresh dill, chopped (or 1 Tbsp. dried dill) 2 Tbsp. chopped fresh parsley salt and pepper to taste

Rinse quinoa well (quinoa tastes bitter if not well rinsed). Bring 3 cups water or broth to a boil. Add rinsed quinoa and bring back to boil. Simmer uncovered for about 15 minutes until liquid is well absorbed. Transfer to large bowl with a small amount of olive oil to prevent sticking, and allow to cool. Meantime, mix together remaining oil, vinegar or lemon juice, parsley, and garlic in a small bowl. Add veggies to quinoa and toss well with dressing mixture, dill, salt and pepper. Chill before serving.

## **Oven Roasted Veggies** – *number of servings depend on amount of veggies used*

Use any combination of the following vegetables, unpeeled, washed, and cut into bite-sized pieces: eggplant, small red potatoes, red onion, yellow or green summer squash, mushrooms, asparagus. Toss with crushed garlic cloves, olive oil and sprinkle with rosemary, oregano, tarragon, and basil to taste. Spread in roasting pan in single layers and roast approximately 45 minutes at 400 degrees until veggies are tender and slightly brown, stirring occasionally. Salt and pepper to taste. Serve while warm.

**Vinaigrette Dressing** - *6 servings (approximately) Note: ingredient amounts in this recipe are approximate - use more or less of certain ingredients to adapt recipe to your personal taste).*

1/4 cup each flax and extra-virgin olive oils 3 Tbsp. Balsamic vinegar (preferred because it has the richest flavor) 2-3 Tbsp. water 1 tsp. dry mustard 1-3 cloves fresh garlic (whole pieces for flavor or crushed for stronger taste) Salt and pepper to taste Oregano, basil, parsley, tarragon or any herbs of your choice, fresh or dried

Place vinegar, water and mustard in a tightly capped jar, and shake well to thoroughly dissolve mustard. Add oil and remaining ingredients and shake well again. Store refrigerated and shake well before using. Dressing will harden when cold; allow 5-10 minutes to re-liquify.

## **Crispy Rice Squares** - *2 dozen*

1 tsp. cold pressed canola oil 1/2 cup brown rice syrup 2 Tbsp. sesame tahini, or almond butter 3 tsp. vanilla extract 2 cups crispy brown rice cereal 2 cups puffed rice 2 cups puffed millet or Perky's Nutty Rice 1/2 cup pumpkin or sunflower seeds 1/2 cup currants, chopped dried apple or dates

Heat oil in a large pot; add rice syrup and tahini or almond butter. Stir until bubbly. Remove from heat and stir in vanilla. Add remaining ingredients and mix well with a wooden spoon. Press into an ungreased 13x9" pan and press mixture flat. Let mixture set at room temperature or refrigerate. Cut into squares. Store in an airtight container.

Slice off the tips of the asparagus and reserve them. Cut the remaining stalks into 1" pieces. Slice the leeks in half lengthwise and wash under cold water to remove any sand. Slice into 1/4" pieces. Sauté the leeks or shallots in the oil over medium heat until soft. Add the garlic and sliced asparagus stalks. Cook, stirring, another minute or two. Add the water or stock and dill. Simmer 10-12 minutes.

Remove from heat, allow to cool 5-10 minutes. Puree half the volume at a time. Return to pan, add the reserved asparagus tips and simmer 3-5 minutes or until tips are just barely tender. Add nutmeg. If soup is too thick, thin with additional water or stock.

Bring water to a boil, add rice and salt, stir and simmer, covered, for 45 minutes. Remove from heat and let sit for another 10 minutes; then remove cover and allow to cool. While rice is cooking, blend almonds, parsley, garlic, and oil in a food processor. When rice is cool, stir with nut mixture and add pepper to taste. Garnish with cucumber if desired.

### **Mock Mac 'n Cheese** - *Servings depend on amounts of ingredients used*

Cook desired amount of brown rice pasta according to package instructions. Toss cooked pasta with olive oil and sprinkle with several tablespoons of nutritional yeast. The yeast gives the pasta a cheese-like taste.

1 lb. fresh spinach, washed, dried, torn into pieces 1 pint fresh organic strawberries or raspberries, washed 1/2 cup chopped walnuts or sliced almonds

*Dressing:*

1 tsp. baking powder 1 tsp. baking soda 2 tsp. ginger 1 1/2 tsp. cinnamon

1/4 tsp. nutmeg 1/8 tsp. cloves

Continue beating and add egg replacer, mixing well. Reduce speed to low and add vanilla. Stir together dry ingredients, then add nuts. With mixer on lowest speed, add dry ingredients in two parts, alternating with the applesauce, until mixture is just incorporated. Pour batter into prepared pan and bake for 20-25 min or until gingerbread springs back when touched lightly in the middle. Cool in pan on wire rack. Store well wrapped in plastic at room temperature. Freezes well.

## DAY 5 RECIPES

**Mochi Rice Waffles** - Serves 4

Purchase 1 package of cinnamon-apple Mochi and defrost. Cut into quarters. Slice each quarter across to form 2 thinner squares. Place one square into preheated waffle iron and cook until done. Top with your choice of fruit or Sautéed Apples (*below*).

**Sautéed Apples** - Serves 2

2 apples, washed 1/2 Tbsp. safflower oil or canola oil 2 tsp. cinnamon 2-3 Tbsp. apple juice

Thinly slice apples and sauté in oil until softened. Add cinnamon and apple juice and simmer, stirring,

uncovered for a few more minutes.

### **Beans and Greens Soup** - *Serves 4-5*

2 cups cooked white beans 2 Tbsp. olive oil 2 medium cloves garlic, crushed 1 large onion, chopped 1 bay leaf 1 stalk celery, diced 2 medium carrots, diced 1 tsp. salt fresh black pepper 6 cups water, vegetable, or chicken broth 1/2 lb fresh chopped escarole, spinach, chard, or collards (or a combination)

In a 4-6 quart soup pot, sauté the onions and garlic in olive oil over low heat. When onions are soft, add bay leaf, celery, carrot, salt and pepper. Stir and sauté another 5 minutes. Add broth or water and cover. Simmer about 20 minutes. Add cooked beans and your choice of greens. Cover and continue to simmer, over very low heat, another 15-20 minutes. Serve immediately or refrigerate and reheat.

**Pear Honey** - *Makes 3 pints Used with permission from "The Allergy Self Help Cookbook," by Marjorie Hurt Jones, R.N. Rodale Press, Emmaus, Pa.*

15 very ripe pears 1/2 cup water 1/2 cup brown rice syrup or fruit juice sweetener

Peel, quarter and core the 15 pears. Place 12 of the pears in a stainless steel or enamel Dutch oven or 3 quart saucepan. Coarsely chop the remaining 3 pears. Place them and the water in a blender. Process until pureed. Pour into the pan with the pear quarters. Bring to a boil, then reduce the heat to a simmer. Stir in the sweetener. Cook until pears are tender, about 30 minutes. Puree the cooked fruit in batches using a blender or food processor. The puree should be about the consistency of honey. If too thin, return it to the pan and boil it down a bit. If too thick, dilute with a little juice. Pour into jars, and store in the refrigerator for up to 1 month.

## **MISCELLANEOUS RECIPES**

**Egg Replacer** - equals one egg 1/3 cup water

1 Tbsp. ground flaxseed

Place the water and flaxseed together and allow to gel for about 5 minutes. This mixture will bind patties, meat loaves, cookies and cakes as well as eggs do, but it will not leaven like eggs for souffles or sponge cakes. Increase amounts accordingly for additional egg replacement.

### **Corn Free Baking Powder**

2 tsp. cream of tartar 2 tsp. arrowroot 1 tsp. baking soda

Sift together to mix well. Store in an airtight container. Make small batches.

## **Baking Tips**

We include ground nuts, in addition to chopped nuts, in the muffin recipes, because the nuts help retain moisture and allow for a small amount of leavening.

To grind soft nuts such as walnuts, or pecans, use 1-2 Tbsp. of the starch called for in the recipe and add to the grinding mixture to prevent clumping. The grinding may be done with a nut chopper, a small (very clean) coffee grinder, or pulsing on a food processor. Particles should be fine enough to pass through a strainer. Grind only what you will need. If you are allergic to nuts, replace the amount of nut flour with an equal amount of another flour or starch called for in the recipe.
