SKU: 99623 Vehicle loop test mat

IN2's loop test mat has been specifically designed to quickly diagnose vehicle or loop control issues on-site. The mat is easily activated using any metallic object such as a spanner or pliers for quick problem identification.

Specification

Coil

Cable length	1,000mm
Inductance	400 – 500 uH
Resistance	> 6 – 10 Ohms
Casing material	Cast acrylic
Customisable	yes (Minimum quantity applies)

Cable

Voltage rating	250 V
Conductor resistance	6 – 10 ohms
Max. operating temp	+70 °c
Min. operating temp	-5 °c

Product

Dimensions

Height – 60mm
Width – 95mm
Depth – 6.6mm
