Locking Centre Stop (plus fixings)

The Locking Centre Stop (plus fixings) is a heavy duty floor centre stop for double leaf swing gates. It has a low design and an intelligent locking mechanism that securely locks the gate leaves together on close. The stop is easily installed with pins and brackets (included) and can be used in conjunction with an electric lock.

Specification

Material	Metal
Product info	<ul style="list-style-type: none">• Heavy Duty floor centre stop for double leaf swing gates.• Very low designed stop• Intelligent design means gate leaves are locked on close.• Designed to be used in conjunction with an electric lock either magnetic or Viro type.• Requires pins and brackets see pricing below.
