

SKU: CP-DC2SEM3L

Traffic Light Controller for 2-Way 3-Lens Control

The DC2SEM3L universal electronic control unit has been devised for the management of two traffic lights with three lenses, in situations where access driveways are narrow and require alternate transit (garage, parking, residence, etc.).

Specification

| | |
|--------------------------|--|
| IP rating | IP grade of box (ABS V-0) IP55 |
| Auxiliary output: | 24 Vac, 160 mA max. (protection fuse 160 mA) |
| Power supply | 230 Vac - 50/60 Hz (5 VA) (protection fuse 160 mA) |
| Temp range | -20°C to +70°C |
| Absorption | Absorption max. supported by relays using 24 V traffic lights: 5 A Absorption max. supported by relays using 230 V traffic lights: 10 A |
