

SKU: CP-MAINSLINK

MAINSLINK 5KM wireless mains to mains 230Vac link

MAINSLINK is a plug and play solution to replace a switched live cable. When 230Vac "LIVE" is input to the transmitter; the receiver provides a 230Vac "LIVE" switched output at its screw terminals. When a cable run is awkward or expensive to achieve, the MAINSLINK can be used, saving time and money.

Specification

Operating range	Up to 5Km range line of sight. Up to 1Km range in buildings
Technology	FSK/LoRa Spread Spectrum RF Modulation. RIoT compatible
IP rated	IP68
Power supply	230Vac
Frequency	868MHz
RF Output power	+20 dBm
Bandwidth (Spreading Factor)	60 KHz
Maximum switching load (RX)	1000 W
Channels	1
