FALL WINTER HOLIDAY LOOKBOOK 2021

HOW IT ALL STARTED

I am an engineer turned artist and I love the little beach town we moved to along the shores of Lake Michigan, so I created a design that celebrates the great things to experience here. That one design started on a postcard, in one store, and now in my 7 years as a small business owner, it's spread to many towns and states and hundreds of designs.

I AM COLORFUL

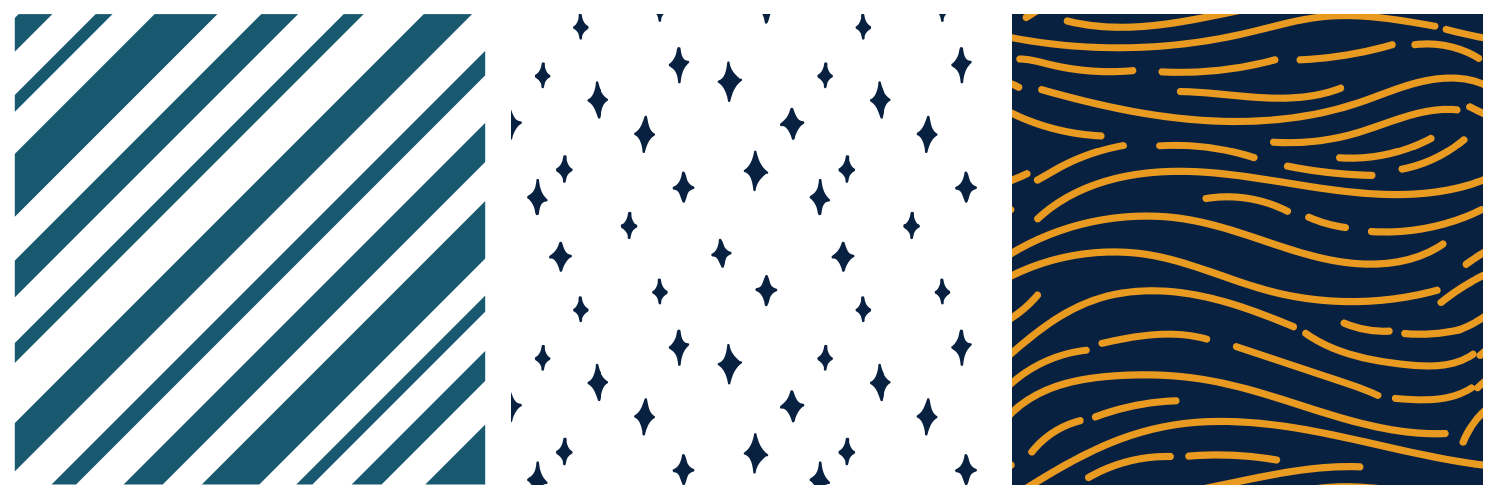

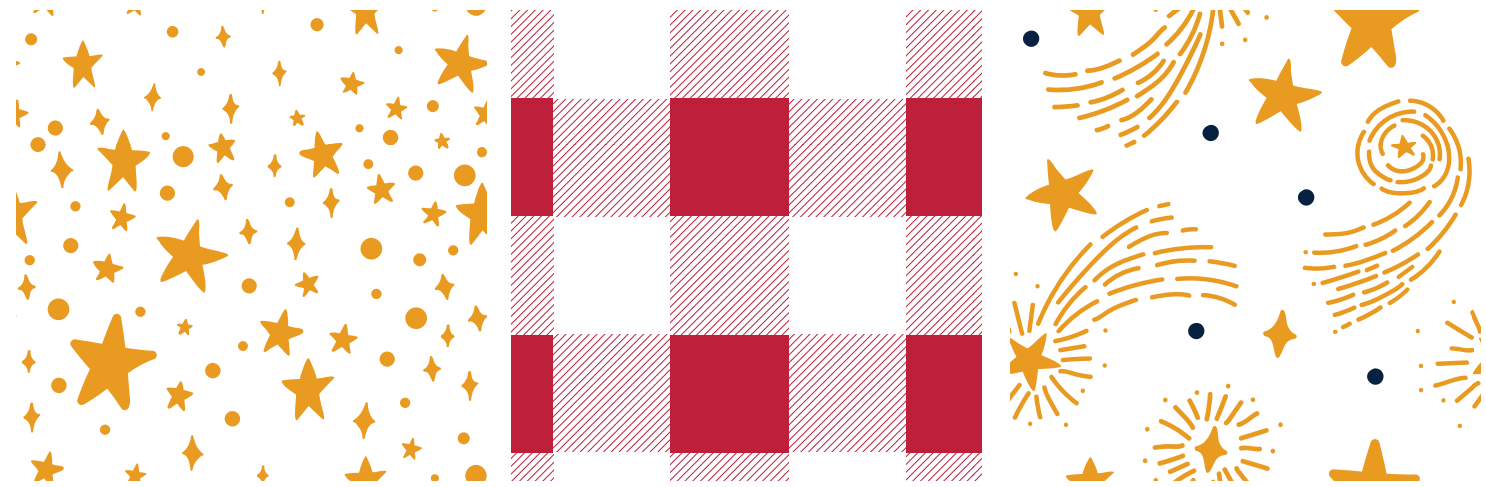

I love colors and bold prints that have a touch whimsy. I don't take life too seriously and I create patterns that make me smile and brighten someone's day. I love to create custom designs too that celebrate the uniqueness of the seasons and where we live.

CUSTOM DESIGNS

My artwork is available to license or purchase and I am happy to freelance or work on commission. I am not only an artist, but a product designer as well, so I am able to help you with your product projects to best fit your customers. We can collaborate together or I can take a subject and start drawing. If you are a company or manufacturer that would like to see my designs or style of artwork on your products, please feel free to contact me.

Jennifer

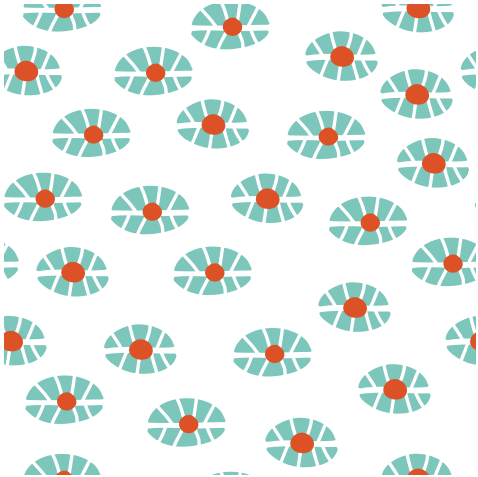

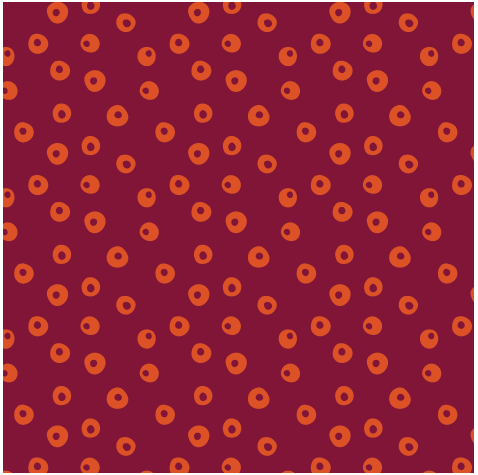

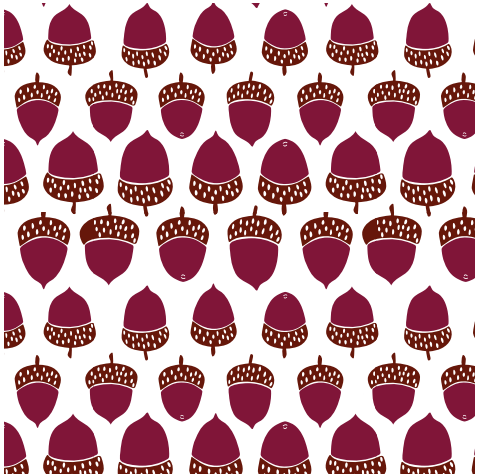

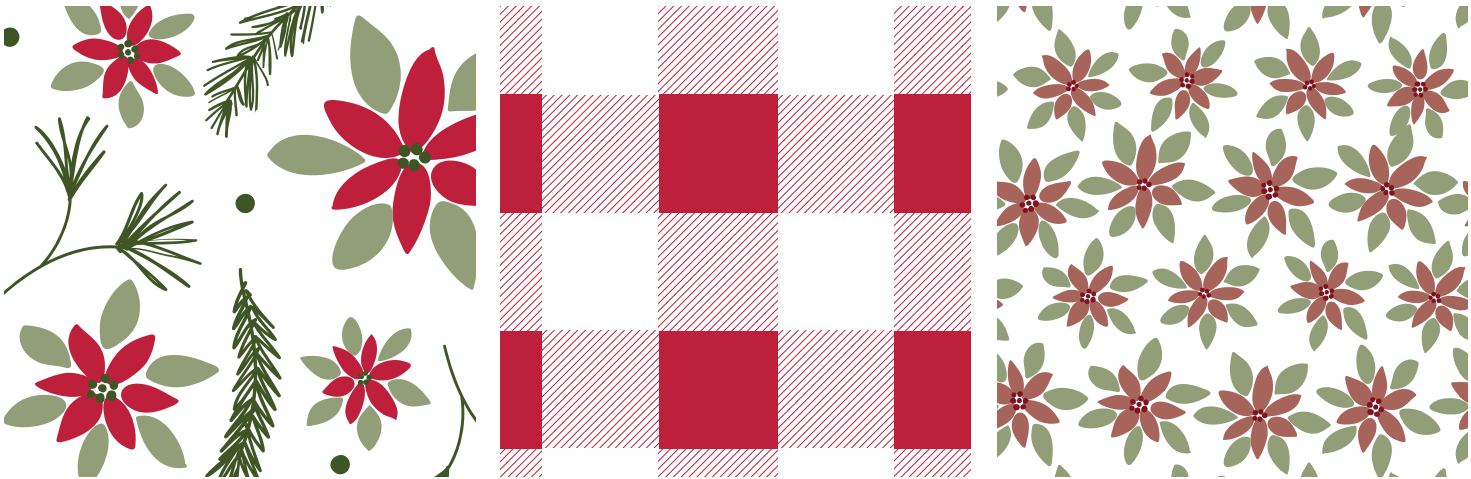

Fall Winter Holiday

The burnt jewel tones of autumn fade away to give space for the rich hues that embody and celebrate all of the winter holidays.
