

TUSK occasional chair

The TUSK occasional armchair, inspired by the majestic African elephant, is a modern reinterpretation of the classic wooden armchair with a reference to the old world. It is beautifully handcrafted with traditional joinery techniques to create a timeless classic look.

Both the seat and back rest is fully upholstered with top grade genuine leather which features the deep buttoning technique. The arm and backrest are sculpted and positioned for maximum comfort to create a most enjoyable experience while the chair frame is manufactured from either solid ash or oak wood and is extremely robust and hard wearing.
