

NO.5 PLUS  
SHAWL

HOW TO USE NO.5 PLUS SHAWL

# The Shawl

The shawl is an optional product for Pognae's No.5 Plus users. If the baby carrier waist belt of No.5 Plus and the shawl are connected, the baby carrier can be used as a baby wrap type.

## How to Connect

# How to Connect The Shawl and No.5 Plus Baby Carrier Waist Belt

● Zippers A1, A2 : Long Zipper

● Zippers B1, B2 : Short Zipper

1 Connect zippers A1 and A2 first.

2 Connect zippers B1 and B2 to finish.

Zip the zipper to the end and lock the zipper by twisting the zipper handle toward the starting end of the zipper.

! Make sure to connect the both zippers for the sake of safety.

The amazing difference of No.5 Plus Shawl

# NO.5 PLUS SHAWL Check Point

## Check 1

### Simple and Chic Designs

Are you rummaging your wardrobe for clothing to match your baby carrier? Pognae No.5 Plus Shawl's simplistic design will go with any design to keep moms and dads stylish.

## Check 2

# Ergonomic design helps support the baby at the waist

Pognae's No.5 Plus Shawl does not support the baby's weight only with the shoulders and back. The waist belt also helps to support the baby and the baby's weight is dispersed efficiently and evenly.

## Check 3

# Three layers of fabric help to support the baby

Three layers of fabric help to support the baby firmly. Elastic and Stretchy fabric tend to stretch as the baby becomes heavier. With Pognae's Innovative design, the three layers No.5 Plus Shawl fabric can minimize the stretching feeling even when the baby's weight is heavier to ensure stable support for prolonged period.

## Check 4

# Safety for everyday use

Babies tend to move unexpectedly any moment. To prevent baby from falling out, firm buckles and sturdy webbing straps are designed for prevention.

## Check 5

# What is the proper sitting position? The M-posture ensures the baby's comfort

Pognae's No.5 Plus Shawl has been designed in an ergonomic way that will support baby's natural growth and development. The M-posture ensures the baby feels comfortable.

## Check 6

# Easy to wear on your own!

01

Wear like a T-shirt,  
and pull the webbing  
straps to the front  
as if you are taking  
down the back plate.

02

Ensure that  
the back plate is  
located at lower  
back.

## Check 7

# Easy to put on and remove

It is challenging to place a sleeping  
baby down. They will wake up easily  
at the slightest changes. Pognae's  
No.5 Plus Shawl is designed to let  
Moms and Dads to safely place  
their baby down by just unbuckling  
the buckles at the side of baby wrap  
without waking them up.

"Sweet Dream little one"

## How to Wear No.5 Plus Shawl

# Holding Infants

1

Place the baby wrap behind the user and wear the waist belt.

2

Turn the waist belt around and place the baby wrap in the front.

3

Wear the baby wrap like a shirt, and place the back panel on the lower back.

4

Widen the fabric No.1 to make space for the baby.

5

Place the baby in fabric No.1 and wrap the baby's body with fabric No.2.

6

Wrap and support the baby with fabric No.3 after wrapping the baby with fabric No.1 and No.2.

7

Support the baby with one hand, and pull the webbing strap like you are lowering the back panel, tightening the baby wrap slowly. Do the same for the other side.

8

Use both hands to pull the webbing straps, as if you are lowering the back panel. Roll and tuck away remaining webbing straps.

9

Do not take the baby's legs out of the fabric and hold the baby upright in a snugged position. If the baby starts to stretch its legs, take the legs out of the two sides when holding the baby.

## How to Wear No.5 Plus Shawl

5

Rotate the waist belt 180 degrees to place the waist belt in the front.

6

Unhook the waist belt to finish.

Tip

# Tips for Wearing No.5 Plus Shawl

## 01 Waist Belt Position

- ⚠ If the baby is younger than 50 days old, wear the waist belt higher than the belly button line of the user. If the baby is older than 50 days old, let the upper end of the waist belt pass the wearer's belly button line.  
(The comfortable position may be different according to the posture of the baby and the user.)

## 02 Location of the Back Plate

- ⚠ The back plate must be located at the lower center of the back. If the back plate is pulled down by using the webbing strap, the plate will move to the center of the back. Stretch the shoulder fabric of the two sides down as much as possible.

## 03 How to Tidy the Webbing Straps

After adjusting the length, roll up the webbing straps.

Grab the rubber bands at the side of the webbing straps.

Turn the rubber band over to wrap the rolled up webbing straps.

Tidied webbing straps.
