About

The Drive Reach OTR Fleet is weBoost's most powerful, in-vehicle fleet truck cell phone signal booster yet. With its increased uplink output, users get signal up to 2X farther from towers with over twice the signal strength—signifying an increase of almost 5dB in uplink output power.

The sleek, metallic red exterior of the Drive Reach isn't just for show. The unique fin design increases surface area—ensuring peak performance. The custom bracket allows for under seat or in-trunk mount options. Reliable SMB connections on the booster make secure antenna installation a snap. With its enhanced cellular coverage, enjoy fewer dropped calls, better voice quality, faster data speeds, and extended battery life.

Drive Reach simultaneously boosts cell signal for multiple users. Easy to follow instructions ensure hassle-free setup. Set the Drive Reach into its bracket and mount, hard wire it into the car's power supply, mount the OTR outside antenna, and get on the road to better signal.

Drive Reach also has a 2-year manufacturer's warranty and a 30-day money back guarantee.

Installation

- 1 Receives signal:** The powerful antenna reaches out to access voice and data signals, and deliver them to the booster.
- 2 Boost signal:** The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.
- 3 Broadcasts signal:** Your devices get a stronger signal, and calls and data are fed through the booster back to the network.
