

APPLICATION INSTRUCTIONS

WASH AND CARE

Mainly suitable for cleaning and maintenance of oiled and waxed wooden floors. Moreover, it is recommend for varnished surfaces such as cork, laminate, stone floors, PVC as well as furniture, wall and ceiling cladding.

Manually: Wash and Care is ideal to use with Osmo Opti-Set (Micro-Mop Plush). For removing everyday dirt mix approx. 1 capful of Wash and Care per litre of water. Damp mop (not wet mop) the floor.

Mechanically: Spread the diluted Wash and Care with a pump aerosol can on the floor. Loosen the dirt with a one disc machine (ex: Osmo FloorXcenter and a white pad. Directly absorb the loosed dirt either manually or with an Active Fibre Cloth (FloorXcenter).

Re-oiling: To re-oil heavy used areas and dirty surfaces first clean intensively with Wash and Care (increase dosage to max 1:1). With a higher mechanical use (ex: machine with a red pad) the dissoluable wax and oil residues are being removed too. The floor has to be re-oiled thinly with Polyx®-Oil 1x after drying.

Tip: To refresh waxed or oiled floors from time to time, we recommend to use our Liquid Wax Cleaner which is based on natural waxes.
