

12-36x50

Magnify a beautiful scenic view with the Hydan 12-36x50mm spotting scope. Compact and lightweight, this spotting scope acts as the perfect addition to any outdoor enthusiast's backpack. Built with a straight armoured body, this scope is best for viewing objects from an elevated position for example in a hide or at the peak of a viewing point. Twist up eyecups and an integrated central focus wheel ensures sharp, high contrast views can be delivered with ease.

In the box: Tripod, Case, Objective Lens Caps and Eyepiece Caps
