RAIN COATS

WINTER COATS

***Please note that the screen display of these color options may differ from the actual color of the fabric.*

FABRICS

POLARTEC® Polar Fleece is soft, comfortable, and warm. This quick-drying fabric is colorfast, stain-resistant and does not pill. Machine washable.

Used in:

- Booties
- Hoods
- Tummy Warmers
- Winter Coats

TASLAN® Fabric is a mid-weight Nylon fabric with a DWR (Durable Water Repellancy) finish so water beads up and rolls off before saturating the fabric. For extra protection, the fabric is also backed with a waterproof, breathable film that keeps wind and water from reaching your dog. Machine washable.

Used in:

- Rain Coats
- Winter Coats

MEGA GRIP Fabric is a durable rubberized fabric that reinforces the bottom of our Polartec fleece Booties. The Mega Grip fabric provides protection from ice and snow. NOT suitable for concrete, asphalt or other abrasive surfaces. Used in: Booties

CARE INSTRUCTIONS

Voyagers K9 Apparel dog clothes are machine-washable for your convenience. Lengthen the lifetime of your dog clothing by following these tips for proper care:

Booties

- Machine wash warm water (Fabric softener may be used)
- Tumble dry low
- Do not use bleach or dry clean
- Booties will soften after washing

Rain Coat • Winter Coat

- Machine wash cold water (Fabric softener not recommended)
- Line dry
- Do not dry clean, iron, or bleach

Tummy Warmer • Hood

- Machine wash warm water (Fabric softener may be used)
- Tumble dry on low
- Do not dry clean or use bleach

For your dog's comfort, we recommend using a static eliminator solution of 3/4 water and 1/4 fabric softener on all Polartec fleece apparel
