

Amoretti® Hand Sanitizer

Ultimate Pastry, Savory & Craft Beverage Manufacturing Company

Co-owners Jack Barsoumian (CEO) & Maral Barsoumian (Marketing President) donating Amoretti® Hand Sanitizer to our local first responders.

Helping the helpers and protecting the protectors. If we've learned anything over the last month since our lives have been turned upside down by COVID-19 and widespread quarantines, it's that we truly are all in this together. Creating our brand new hand sanitizer in the middle of a nationwide pandemic and drastic raw material shortages isn't something we were forced to do, but rather something we deeply wanted to do. Assisting those who give so tirelessly and selflessly is something that is near and dear to our hearts, and something that we will always do.

A big thank you to the following for stopping by this week to pick up our donations of hand sanitizer and meeting with two of our founders, Jack and Maral Barsoumian: **City of Camarillo, Camarillo Police Department, Oxnard Police Department, Oxnard Fire Department, Ventura Police Department, Ventura County Fire Department #52, California Highway Patrol.** Our gratitude toward you, as well as the tens of thousands of first responders and medical professionals across the country battling this terrible disease, is limitless. Stay safe and healthy everyone, and thanks for being part of our family.
