

Lifetime Collar®

We recommend adjusting a normal collar so you can slip it over your pup's head comfortably. Measure the collar to find your size. When in between sizes, size up for a better fit. You can also follow the instructions below and use the guide to determine you pups size.

1. Print the guide at actual size, do not to scale or fit to page. Place a quarter in the circle to check if the size is correct.
2. Cut the guide out along the dotted lines to create 3 pieces.
3. Tape the pieces together being careful to align the corresponding letters.
- 4. Measure the guide around your pups head since it's a fixed-length design and slips on/off.**
5. If they're in between sizes, always size up for a proper fit. It should fit more like a necklace than a traditional collar.
