Fabulous Shoes!

Wearing orthotics has meant not always wearing the cutest shoes. Not only are the shoes AMAZING, the staff is wonderful as well. We initially ordered the wrong size and they helped us through getting things right.

Great to wear with AFOs

Finally a pair of sneakers that fit wonderfully with AFOs/KAFOs that my son can put on and take off all on his own. The depth and width of these sneakers are perfect. I especially love the removable inserts. I no longer have to destroy sneakers to get my son's sneakers to fit appropriately. I am so happy!

AFO's

My 5 yr old wears AFO's and we love these shoes. She can get them on and off easily by herself and they look great.

Love these wider shoes!

Finding shoes wide enough to fit over my son's AFOs has been so difficult! I'm so happy BILLY Footwear came out with high tops that actually fit! At first they didn't zip up so we took out the insoles & now they zip up with little effort.

Love them

The WDR shoes are wider and my girls love them. I would recommend them for when braces are bulky and have hinges. Awesome shoes.

New favorite shoes!

We've been struggling to find a great pair of shoes that work for our little lady with her braces. The orthotics team we go to recommended these so we decided to purchase and after having them for not quite a week we've been so happy with them!! They provide great support and we can't get over how easy they are to get on and off. We read that there will be more colors/options in the Wides coming out so we're definitely eager for that to get her more great shoes!! Thank you for making something that serves our kiddos with special footwear needs!!

10/10 Would Recommend!

We LOVE these shoes! My son wears a toddler size 5 and it's near impossible to find shoes that fit over his SMO braces. But we found BILLY shoes and ordered a 5W. They are perfect! The zipper makes them super easy to get on and off and they keep his ankles stable so he is able to walk. We will be purchasing more for sure!
