Applying a sticker that has been printed to "Bubble Free" vinyl

Ensure vehicle is clean and dry. Use a piece of masking tape to hold the sticker in place and at the same time creating a hinge.

Carefully peel the sticker away from the backing and fold back material. along the hinge.

Trim away the excess backing

Use a squeegee to smooth down the sticker.

Remove the masking tape hinge

Fold the remaining part of the Smooth down carefully using sticker back and peel off the the squeegee... backing material.

Until the entire sticker is in place. Don't worry if you see lots of bubbles...

... simply push them with your ...and watch them disappear... finger...

...like magic...
