

# stickers4

mark the centre-point of the windscreen

spray the windscreen with a fine mist of water mixed with a couple of drops of fairy liquid

carefully remove the sticker from the backing paper

spray the sticky side of the sticker with the same solution

lay the sticker on the windscreen and line the tiny notch, at the top of the sticker, up with the centre-point mark.

carefully squeegee out the excess water and push the sticker into the edge of the windscreen

using a sharp blade, very carefully trim away the excess material by running the blade around the windscreen trim

pull away the excess material leaving the sunstrip in place. Squeegee again to make sure all water has been expelled. Allow to dry for 12 hours and test adhesion before driving at speed
