

2015-16 Kawasaki Versys 1000/1000LT GPS Mount Installation Instructions

Items Included

- Universal GPS Mount
- Hardware: 4 Stainless Steel Phillips Screws, 4 Stainless Steel Locknuts, 8 Stainless Steel Washers

Tools Needed

- Phillips Screwdriver
- 10 mm Open Wrench

INSTRUCTIONS

1. First, get a small container to hold pieces of hardware during installation.

Remove the windscreen.

2. Slide the GPS Mount from the inside into the windscreen brackets. Next, using a Phillips screwdriver, attach the mount to the windscreen brackets with the 4 Phillips screws and 4 locknuts provided. Place the washers under the heads of the screws and the locknuts on the other side. Now, tighten the screws with a 10 mm open wrench and reinstall the windscreen.

Your installation is now completed. Thank you for purchasing our GPS Mount!
