

Kawasaki Versys 2007-2009 Mirror Extenders Installation Instructions

- 1) Slide the rubber cap up to expose the screw on the mirror as shown

- 2) Using a 19 mm wrench, unscrew the mirror with a counterclockwise motion. You may need to twist the handle bar to do it, so as not to hit the windscreen
- 3) Screw the mirror to the mirror extender's threaded hole as shown

- 4) Use the **6 mm Allen wrench** to screw the mirror extender to the handle bar with the black hex screw provided.

- 5) Force/adjust the mirror into the new position

- 6) Repeat these steps for the other mirror
