

VAULT DOOR: PANIC ROOM LOCKOUT

Granite

Black

Sandstone

What's New?

Installing an American Security vault door is the best way to secure a walk-in space for use as a vault, gun room, safe room, or storm shelter.

And now, our vault doors are even more enhanced.

Introducing our newest feature:
Panic Room Lockout.

Our all-new panic room lockout allows the user to safely lock themselves inside, despite the lock combination being entered from the outside.

Key Features

- Panic room lockout feature comes standard with all VD models
- New vault door size to fit a 79.5" x 41.5" wall opening (VD8042)
- 2" thick door offers a defense barrier constructed of a 1/2" steel plate for BF models and a 1/4" steel plate for BFQ models filled with DryLight® insulation material that provides a barrier against extreme heat.
