SUPPORT FROM LAW ENFORCEMENT

"During my extensive career, I unfortunately witnessed many tragic gun related incidents resulting in serious injury and death, that very likely could have been prevented had there been a real-time alert sent to the gun owner that their weapon had been moved or stolen without their knowledge.

The Level 2 Security Gun Alert provides such a notification along with subsequent GPS locations to locate and recover your firearm. This will save lives, I have tested it and it works." **Retired Law Enforcement Captain Scott M.**

GUNS LOST OR STOLEN IN THE U.S. ON THE RISE

MY GUNALERT IS **PEACE OF MIND** FOR GUN OWNERS.

Attach GunAlert onto your firearm, range bag or case - and always know if it moves!

**THE DANGERS ARE REAL.
MY GUNALERT CAN SAVE LIVES.**

PREVENT GUN THEFT & TRAGEDY AS A RESPONSIBLE GUN OWNER

GunAlert was created with gun safety as a priority. The patented technology is sensitive enough to alert you as soon as your gun is moved. The easy-to-use app (Android and iOS) allows you to view your gun's exact location and monitor all movement. - **WHEN SECONDS COUNT, TRUST GUNALERT.**

GUNALERT'S STEEL LOOPS PROVIDE SECURE HOLD ON TO A GUN LOCK, GUN SAFE, CASE, OR RANGE BAG.

SECURITY FOR YOUR GUN, SECURITY FOR YOUR DATA

Your motion and location data is sent directly to your app through a secure VPN, which means it is not stored on any server. Your data is secure and private- viewable, and manageable only by you. You are able to permanently delete your data history.
